

WARSAW SCRAMBLE

Ready, set, go! The Warsaw Scramble is a fast-paced city hunt, right in the heart of Warsaw.

Participants work together in 5-6 person teams to complete a series of mental, physical and psychological challenges, all within a short walk of Pilsudski Square. The teams are guided by the maps, codes and clues they find along the way, and receive points for each challenge they complete. The faster they solve them, the more points they earn, creating an exciting race to the finish!

The challenges require close cooperation to solve, and include simple questions; clever puzzles; interactions with locals; Augmented Reality; and more than a few surprises.

Players learn about Warsaw's culture, legends, history and architecture. More important, they get to know their colleagues better – becoming “brothers-in-arms” after jointly tackling the challenges, stretching their creative problem-solving (and a few real) muscles, and having fun along the way.

WARSAW SCRAMBLE

The event is supported by a customized mobile application,  CLUEKEEPER which replaces the traditional „paper-based” approach with GPS-based guidance to specific locations, augmented reality clues, clear and consistent hints, real time scoring and monitoring of teams’ progress, a leaderboard visible to all participants, messages during the event, and more.

- 2 hour event, in English or Polish
- 15+ participants
